

DSKZ2-12V (SWL 600KG)

**NFK HIGH PERFORMANCE
DUAL VACUUM CIRCUITS
VACUUM RIGS**
GERMAN ENGINEERED AND MANUFACTURED BY KAPPEL

The Kappel DSKZ2-12V is a versatile, quality rig designed and engineered in Germany. It offers Hydraulic tilt assist and includes a combination of two vacuum pumps, each with its own power supply. Quick release pads and vacuum lines allow for easy configuration of cups to suit any lifting requirements.

An adjustable lifting eye directly on the frame assists in lifting under overhangs and allows glass to be hung as vertical as possible. The narrow 190mm deep frame is ideal for working between structure and scaffold and a new compact shape with wrap around handle helps conceal machinery for protection. This flexible design allows for all pads to be removed and reconfigured as required for odd shaped/narrow glass, attaching special lifting frames etc. Supplied on a light weight trolley.

Min Glass Size	150kg – 2 cups diagonal on main frame 1000mm x 400mm 300kg – 4 cups on main frame 850mm x 750mm 300kg – 4 cups inline (2 cups on extensions/2 on main frame) 2200mm x 500mm 600kg – 8 cups (4 on main frame/4 on extensions) 1900mm x 1400mm
Max Glass Size	2000mm x 2200mm (with 4 cups on main frame) 3000mm x 5000mm (with extension arms)
Lift Capacity	600kg
Total Rig Weight	75kg
Rig Size	705mm (Height) x 808mm (Width) x 200mm (Depth)
Tilt	Manual – 90 degree
Rotate	Manual – 360 degrees
