

GLASS SCRATCH REMOVAL SYSTEM BY GLASSRENU

GlassRenu

- The GlassRenu® Scratch Removal System is the industry's premier, patented solution for removing scratches and acid damage of any size and depth from all types of glass, providing clarity without distortion.
- With GlassRenu, you will be able to repair 75%-95% of the glass panels you previously had to replace – in a fraction of the time and at a fraction of the cost.
- 3-step grinding/polishing process that removes scratches or surface damage of all sizes quickly with no discernable distortion

WHY CHOOSE GLASSRENU FOR SCRATCHED GLASS REPAIR?

The GlassRenu System is the industry's premier and most comprehensive solution to removing scratches and acid damage from all types, sizes and depths from all kinds of glass.

Purchased as a system and used as a scratch removal method, GlassRenu offers a complete solution that has not been equalled by any other system in the industry.

GlassRenu comes complete with all the high-grade tool components you need for onsite repairs using any variable-speed industrial grinder. When combined with our uniquely designed (patents pending) RenuDisks® and our advanced formula polishing compound, even a novice repair technician can quickly become proficient in removing scratches without distortion in a fraction of the standard repair time.

PATENTED DRY GRINDING SYSTEM

- The GlassRenu process is unique among all other scratch removal or polishing systems.
- It's easy to learn and easy to master. Repairs are performed quickly – without all the mess and set-up of other "wet" systems.
- Users on three different continents tell us that their results are so amazing; many of their customers can't believe that the glass was repaired and not replaced.

PROFESSIONAL TOOLS FOR GLASS PROFESSIONALS

GlassRenu has changed the glass repair industry forever. Glass technicians in numerous countries are suddenly more productive, more profitable and able to repair glass that could only have been replaced in the past.

GLASS SCRATCH REMOVAL SYSTEM COMPONENTS

Component	Stage	Product code
