

Machinery & Processing Equipment

Cross Belt Arrissing Machine

- Non-stop high performance
- Reliable even in the harshest glass processing environments
- Robust design for vibration-free performance

Technical characteristics

Silicone carbide belts, qty	2
Silicone carbide belts, size	100×3350 mm
Frame	8mm steel
Piped coolant system	8mm stainless steel
Electric Motor	WEG 3 phase, IP67
Bearings	Stock sized
E-stop	2, at back and front of machine
Additionally	Safety Limit Switch to back door
