

Stainless Steel H Handles

- 32mm diameter, round tube
- The round section allows comfortable ease of use
- Available in 450mm, 600mm, 800mm, 1000mm and 1200mm lengths
- Suitable for use on glass, timber and aluminium doors, for internal and external use
- Made of corrosion-resistant 316 stainless steel
- High-quality, durable finish
- Available in single, equal back-to-back pairs or long & short back-to-back pairs
- Bolt size: Ø12mm
- We can custom-make handles to specific lengths, with stand-off centres and quantities altered as required
- Mounting kit for framed doors also available
