

KAPPEL VACUUM LIFTER DSKE2 - 12V

KAPPEL Vacuum Lifter DSKE2-12V (Vac Rig 450kg InLine) is a German-engineered glass vacuum lifter designed for safely handling long, narrow glass panels such as fins. Featuring a 6-cup in-line configuration with dual independent vacuum circuits for maximum safety, it can be expanded with load-bearing extensions to increase glass length and capacity. Supplied on a lightweight trolley.
