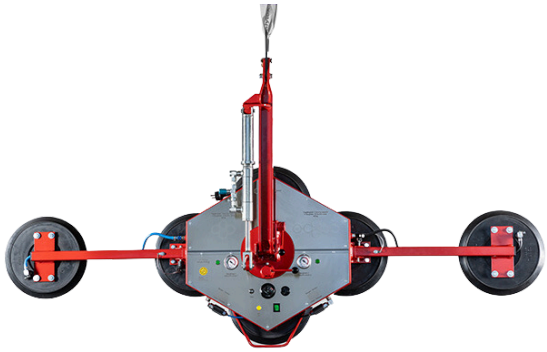
Kappel Vacuum Lifter
Kappel DSKZL2-12V



- Designed, engineered and manufactured in Germany
- Meets the most stringent international safety standards
- Adjustable lifting point
- Dual circuit vacuum system
- 6 Suction units
- Two extension arms
- Audio-visual low vacuum alert

Options	Code
Onboard control panel	35-VDSKZL212V-450
Onboard and cable remote control for suction, release with quick release function	35-VDSKZL212VRR-450

Technical characteristics	
Number of suction cups:	150K (diameter: 330mm) - 6
Max Lift Capacity:	300 kg with 4 suction cups, without extensions450 kg with 6 suction cups, with extensions
Total Rig/Lifter Weight:	approx. 55 kg
Rotate:	360° manual, lockable every 45°
Tilt:	90° manual, stepless, with a lowering cylinder
Power supply:	12 V battery mains-independent with integrated charger
Features:	• The voltage indicator shows the battery charge level • The vacuum display shows the current vacuum level • Acoustic warning signal when vacuum is undershot
Service:	suction/ release valves
Optionally:	Cable or radio remote control for suction, release with quick release function
